

IN THE CLAIMS

Please amend the claims as follows:

1. (original) A method of creating a view (V) on a computer screen (3), the method comprising the steps of:

the computer (2) receiving a request from a user to create a view, the request comprising a location indication,

the computer (2) determining, on the basis of the location indication, both a view location and view dimensions, and

the computer (2) displaying a view (V) having said view location and said view dimensions.

2. (original) The method according to claim 1, wherein the location indication comprises a point on the screen indicated by the user.

3. (original) The method according to claim 2, wherein the view has a center which substantially coincides with the point on the screen indicated by the user.

4. (currently amended) The method according to ~~any of the preceding claims~~ claim 1, wherein the view dimensions are as large as possible.

BEST AVAILABLE COPY

5. (currently amended) The method according to ~~any of the preceding claims~~claim 1, wherein the computer provides view activation points (P) on the screen, each view activation point corresponding with a view having predetermined view dimensions.

6. (original) The method according to claim 5, wherein the computer provides at least two different types of view activation points (P_1 , P_2), one type corresponding with views having a fixed size.

7. (currently amended) A device programmed for carrying out the method according to ~~any of claims 1 to 6~~claim 1.

8. (original) The device according to claim 7 which is a desktop computer (1), a laptop computer, a palmtop computer, a PDA or an electronic organizer.

9. (currently amended) A software product for carrying out the method according to ~~any of claims 1 to 6~~claim 1.

10. (original) An information carrier, such as a CD-ROM, provided with a software product according to claim 7.
